

HOW TO APPLY FOR Building Permit for Relocation of Structures

City of San Diego
Development Services Department
1222 First Avenue, MS 302, San Diego, CA 92101-4101

INFORMATION
BULLETIN

711

July 2017

This bulletin describes the building permit requirements for the relocation of a residential or non-residential building from its original construction site to a new permanent site within the City of San Diego.

I. PERMIT REQUIREMENTS

A **Building Permit for Relocation** is required for the placement of a building on a new permanent site. The permit includes the foundation for the relocated building and any required repairs, additions or alterations to the building that are shown on the approved plans.

Storage of residential or non-residential buildings on a temporary site within the City of San Diego does not require this permit. The temporary storage site must be zoned for that purpose.

Building permits for relocation will not be issued on a property where a development permit (Neighborhood Use Permit, Neighborhood Development Permit, Conditional Use Permit, Variance, Coastal Development Permit, Site Development Permit, or Planned Development Permit) is also being processed by the City. Building permits for Relocation will not be issued until a decision has been made by the appropriate decision maker in accordance with Section 129.0105 (a),(b),(c) and (d) of the Land Development Code.

II. ADDITIONAL PERMIT REQUIREMENTS

Please refer to the **Table 1** to determine which required permits are needed when relocating a building from an original site or a temporary storage site to a new permanent site.

SECTION II TABLE 1

When Moving Structures from:	ADDITIONAL REQUIREMENTS	REQUIRED PERMITS
A to B	Coastal Development Permit (if A or B are located within a coastal zone) Site Development Permit (if structure being relocated is a designated historical resource)	Demolition/Removal Permit (IB 710) Transportation Permit (Form DS-3094)
B to C	Coastal Development Permit (if B or C are located within a coastal zone) Site Development Permit (if structure being relocated is a designated historical resource) Neighborhood Development Permit (if C already contains a building) Approved Pre-Relocation Examination ¹	Building Permit for Relocation Transportation Permit (Form DS-3094)
A to C	Coastal Development Permit (if A or C are located within a coastal zone) Site Development Permit (if structure being relocated is a designated historical resource) Neighborhood Development Permit (if C already contains a building) Approved Pre-Relocation Examination ¹	Building Permit for Relocation Demolition/Removal Permit (IB 710) Transportation Permit (Form DS-3094)

¹ The Pre-Relocation Examination must be performed by Development Services staff and approved during the review of the Building Permit for Relocation. This Pre-Relocation examination approval is required prior to the issuance of the Demolition/Removal permit.

A. Neighborhood Development Permit - If a building is to be moved onto a site which already contains a building, a Neighborhood Development Permit is required (LDC 126.0402) prior to submitting for a building permit for relocation.

B. Site Development Permit - If the building to be relocated is a designated historical resource, a Site Development Permit may be required prior to applying for a Building Permit for Relocation. Refer to Information to Information Bulletin 581, "Designated Historical Resource Review" for additional Historic Review information

C. Coastal Development Permit - If the building to be relocated is to be moved onto a site located on a coastal zone, a Coastal Development Permit is required

prior to submitting for a building permit for relocation.

D. Demolition/Removal Permit - Prior to applying for a building permit for relocation, a demolition/removal permit will be required for the removal of a building from its original construction site.

If a structure is relocated within the same site, a separate demolition/removal permit must be obtained. Refer to Information Bulletin 710 "Building Demolition/Removal" for permit information.

E. Transportation Permit - This permit is for transporting the building over the public right-of-way. This permit is only issued to a licensed house and building moving and demolition contractor with a State of California license classification A or C-21.

Note: A Transportation Permit may not be issued until a Building Permit for Relocation and/or Demolition/Removal permit are/is also issued.

Refer to [Form DS-3094](#) "Transportation Permit" for additional permit information.

III. REVIEW PROCESS

- A.** The review for an application for permanent relocation of a building to a new site will include a pre-relocation examination, unless the building is to be placed at a storage site that is an approved use as a storage site in accordance with the (LDC 129.0204(e)).

If a pre-relocation examination finds that a residential building is substandard, no Building Permit will be issued until the plans are revised to include additional work that will eliminate the substandard condition (LDC 129.0213(e)).

Note: Any structure that is proposed for relocation that has been damaged, has had portions removed, has been cut into sections, or has been otherwise structurally altered after the pre-relocation examination may be considered a substandard structure or nuisance and may be abated in accordance with the Land Development Code. (per Section 121.0302(h)).

- B. Designated Historic:** If the new permanent site contains a designated historical resource or is within a designated historical district, plans and the historic resource information package must be submitted for historic review.

Refer to Information to [Information Bulletin 581](#), "Designated Historical Resource Review" for additional Historic Review information.

IV. SUBMITTAL REQUIREMENTS

A. FORMS AND DOCUMENTS REQUIRED:

- 1. General Application Form** ([DS-3032](#)) must be submitted with all

projects. **The address the building is being relocated from must be included in the description of work.**

For example "relocate one-story residence presently located at 1222 First Avenue."

- 2. Water Meter Data Card** ([DS-16](#)) must be completed.

- 3. Hazardous Materials Reporting** ([DS-165](#)) - For non-residential structures.

- 4. San Diego Regional Hazardous Materials Questionnaire** ([HM-9171](#)) For non-residential structures

- 5. Storm Water Requirements Applicability Checklist** ([DS-560](#))

- 6. Owner Builder Verification Form** ([DS-3042](#)) is required if the property owner is not hiring a licensed contractor to perform the work but intends on performing the work himself/herself or hiring licensed subcontractors.

B. PLANS REQUIRED

Additions and alterations to relocated Dwelling Units must comply with all the requirements for a new structure. Refer to the [Project Submittal Manual Section 2A](#) "Single Dwelling Units/ Duplex and Accessory Structure."

Relocated non-residential buildings must comply with all the requirements of a new structure. California Existing Building Code 409.1. Refer to the [Project Submittal Manual Section 2](#) "Construction Permits -Structure."

Potential Historic Resource: If the new permanent site contains structures 45 years old or older, plans and the historic resource information package must be submitted for historic review. Refer to

Information to [Information Bulletin 580](#), "Potential Historical Resource Review" for supplemental submittal requirements.

The plans must include:

1. Scope of Work

The Title Sheet of Plans shall have a brief statement specifying the scope of work of the project. **The address the building is being relocated from must be included in the scope of work.** For example "relocate one-story residence presently located at 1222 First Avenue."

2. Site Plan

See [Information Bulletin 122](#) for detailed information.

3. Foundation Plan

4. Exterior Elevation

Elevations with dimension are recommended. Zoning and Planning regulations require transparency, building articulation and other architectural design features.

5. Landscape Plan

For more information, refer to [Landscape Plan Review Section](#).

6. Details

Sufficient details must be shown to clearly explain the method of construction and means of connection.

Note: If the proposed project is located in the Very High Fire Hazard Severity Zone, the provisions of California Residential Code, Section R327 (or the provisions of California Building code apply.

Visit the Development and Permit Information counter (DPI) on the 3rd floor of the Development Services Center to determine if your property is in the

Very High Fire Hazard Severity Zone. The following plans and minimum information must be provided.

7. Stormwater Best Management Practices (BMP's)

The following notes must be added to the plans: **Stormwater Quality Notes Construction Best Management Practices (BMP's).**

Project shall comply with all requirements of the State permit; California Regional Water Quality Control Board, San Diego, Order No. R9-2007-001, NPDES, the City of San Diego Land Development Code, and Storm Water Standards Manual.

8. Title 24 Energy Requirements

While relocated buildings may not have to comply with California Energy Efficiency Standards, all single dwelling units, duplex or non residential additions and alterations are required to comply with the California Energy Efficiency Standard.

V. FEES

A. Building Permit Fees

The following fees are charged for Building permits for relocation:

- Manufactured home fee for relocations of SDU/Duplexes.
- Commercial coach fee for relocation of commercial coaches.
- Hourly plan check fee for relocation of non-Residential / MDU buildings.

Refer to [Information Bulletin 501](#), "Fee Schedule, Construction Permits - Structures", for all applicable fees.

B. Plumbing/Gas, Electrical Fees

All electrical, plumbing/gas installations conducted outside of the structure to be relocated require a permit from and shall be inspected by, the City of San Diego.

[See Information Bulletin 103](#), "Fee Schedule and Worksheet for Mechanical, Plumbing/gas, Electrical" for charges.

C. Water and Sewer Fees

Water Sewer capacity fees are due when the structure to be relocated contains plumbing fixtures and/or the property will be irrigated. For more information, see "[Schedule for Water and Sewer Fee](#)" bulletin.

D. Impact Fees

A relocated structure is subject to Impact fees. Impact fees are paid at building permit issuance. For information regarding the [Impact Fee Schedule](#), [Demolition Credit Requirements](#), or the process to waive, adjust, or reduce the Development Impact Fees (DIF), contact Facilities Financing at (619) 533-3670 or facilitiesfinancing@sanidiego.gov.

E. School Fees

A school fee may be assessed by the local school district(s) for a relocated structure. DSD [Information Bulletin 146](#), School Fees, provides information about school fee requirements, how the fees are calculated, and how to pay school fees to the school district prior to permit issuance.

VI. OPTION FOR SERVICE

A. Visit the Development Services Department, 1222 First Avenue, 3rd floor. Appointments are recommended and can be scheduled by calling (619) 446-5300.

B. Phone by calling (619) 446-5000

VII. PERMIT EXPIRATION

Time limits for completing relocation work are more stringent than those provided for new construction. Expiration date for a Building Permit for Relocation of a residential structure is **two years (four years for non-residential structure) after date of permit issuance.**

Building Permit for Relocation permits cannot be extended.
